JOINT COMMITTEE ON FINANCE

MEMORANDUM

To: Members
Joint Committee on Finance

From: Senator Mark Miller
Representative Mark Pocan

Date: September 27, 2010

Re: Environmental Improvement Fund Biennial Finance Plan

Attached is a copy of the of the 2011-13 Wisconsin Environmental Improvement Fund Biennial Finance Plan from the Department of Natural Resources and the Department of Administration, pursuant to s. 281.59(3)(bm)3, Stats.

In accordance with the statute, the plan provides information on loan, loan subsidy, and bonding levels for program operations in the 2011-13 biennium. Copies are required to be sent to the Joint Committee on Finance and the Chief Clerk of each house for distribution to the appropriate standing committees.

This report is being provided for your information only. No formal action is required by the Committee. Please feel free to contact us if you have any questions.

The Honorable Mark Pocan
Co-Chair Joint Committee on Finance
Room 309 East
State Capitol

SUBJECT: Wisconsin Environmental Improvement Fund
Biennial Finance Plan for 2011-2013

Dear Representative Pocan:

Environmental Improvement Fund (EIF) program legislation (s. 281.59(3)(bm)1, Wis. Stats.) requires the Department of Natural Resources and the Department of Administration to submit to the Legislature and to the State Building Commission the first version of the EIF Biennial Finance Plan. The purpose of the Plan is to provide information on loan, loan subsidy, and bonding levels for program operations in the 2011-2013 biennium.

If you have any questions regarding the Biennial Finance Plan, please contact Mary Rose Teves at 267-7683 or Michael Wolff at 267-2734.

Sincerely,

Mary Rose Teves, Director
Bureau of Community Financial Assistance
Department of Natural Resources

Frank R. Hoadley
Capital Finance Director
Department of Administration

BIENNIAL FINANCE PLAN
ENVIRONMENTAL IMPROVEMENT FUND
FIRST VERSION
SEPTEMBER 2010

Prepared by:

Department of Natural Resources
Bureau of Community Financial Assistance

Department of Administration
Capital Finance Office

ENVIRONMENTAL IMPROVEMENT FUND
BIENNIAL FINANCE PLAN
FIRST VERSION, SEPTEMBER 2010

EXECUTIVE SUMMARY

PROPOSED FUNDING LEVELS FOR THE ENVIRONMENTAL IMPROVEMENT FUND (EIF)

BONDING AUTHORITY AND PRESENT VALUE SUBSIDY LIMIT
(in millions of dollars)

	CHANGE IN AMOUNT	CUMULATIVE
A. CLEAN WATER FUND PROGRAM		
General Obligation Bonding	\$39.7*	\$816.8
Revenue Bonding	353.0	2,716.3
Present Value Subsidy	110.2	n/a

Bonding and present value subsidy levels are expected to be sufficient to meet all of the estimated non-hardship requests.

B. SAFE DRINKING WATER LOAN PROGRAM		
General Obligation Bonding	\$12.6*	\$58.0
Present Value Subsidy	30.7	n/a
C. LAND RECYCLING LOAN PROGRAM		
Present Value Subsidy	\$0.0**	n/a

Notes:

*For the 2011-13 biennium, it is estimated that the Clean Water Fund Program and the Safe Drinking Water Loan Program will together require \$52.3 million of new general obligation bonding authority to fund \$776.9 million in new projects expected to apply during that period. The new authority requested, along with amounts expected to carry over from previous biennia, will provide amounts sufficient to fund the subsidies, reserves, federal capitalization grant matching amounts, and hardship grants for the biennium.

**All of the funds allocated to the Land Recycling Loan Program have been obligated.

The proposed funding levels of general obligation bonding, revenue bonding, and present value authority are based on estimates of future needs for funding. These estimates, and the associated funding levels, may change as more data becomes available and as the budget development process proceeds.

ENVIRONMENTAL IMPROVEMENT FUND
BIENNIAL FINANCE PLAN
FIRST VERSION, SEPTEMBER 2010

INTRODUCTION

Section 281.59(3), Wis. Stats., requires the submission of a Biennial Finance Plan for the Environmental Improvement Fund (EIF) to the Building Commission, the Joint Finance Committee, and to the Chief Clerk of each house of the legislature. The law requires that the Department of Natural Resources (DNR) and the Department of Administration (DOA) provide information on the following topics:

1. An estimate of the wastewater and storm water treatment, safe drinking water, and land recycling project needs, and the total amount of financial assistance planned to be provided or committed for projects during the four fiscal years of the next two biennia.
2. The extent to which the EIF will be maintained in perpetuity.
3. Financial statements, charts, and other financial information regarding the EIF.
4. The estimated present value of subsidies for program loans and grants listed in the biennial needs list with a discussion of the assumptions made in these subsidy calculations.
5. The amount and description of service fees to be charged.
6. The Biennial Finance Plan impact on the guideline stated in s. 281.59(3)(b), Wis. Stats.

Attachment A summarizes program authority levels and financial assumptions. Attachment B charts projected sources and uses of funds for the 2011-13 biennium. Attachment C shows the estimated fund capital available for commitments in each of the next four fiscal years based on projected repayment of financial assistance and other fund balance projections.

NEEDS AND FINANCIAL ASSISTANCE PLANNED TO BE PROVIDED

Clean Water Fund Program (CWFP)

Table 1 shows the projections of the total amount of all wastewater and storm water funding needs and the financial assistance planned to be provided over the next four fiscal years. These projections represent the best estimates as of September 7, 2010 based on DNR data, historical CWFP loan data, and surveys of DNR field staff and municipalities.

TABLE 1
PROJECTED WASTEWATER AND STORM WATER NEEDS AND ASSISTANCE PLANNED TO
BE PROVIDED
(in millions of \$s)

% of Market Interest Rate	FY12	FY13	FY14	FY15
60% Compliance Maintenance	523.3	96.5	229.0	121.1
65% Storm Water	5.7	0.0	0.0	0.0
70% Unsewered	3.8	1.7	1.1	3.1
Market Rate	28.0	5.2	12.1	6.6
TOTAL	560.8	103.4	242.2	130.8

ENVIRONMENTAL IMPROVEMENT FUND
BIENNIAL FINANCE PLAN
FIRST VERSION, SEPTEMBER 2010

Safe Drinking Water Loan Program (SDWLP)

Data from preliminary needs surveys and past application activity indicate that drinking water needs will exceed the amount of capitalization grants available in the next two biennia. Therefore, we show numbers for financial assistance planned to be provided. For the purposes of calculating assistance planned to be provided, we assume that the state receives \$23,400,000 in capitalization grants in each year.

Table 2 shows the amount of funds expected to be available during the biennium. The amounts include state match contributions (20% of capitalization grants), unused funds from previous years, repayments, and investment earnings.

TABLE 2
PROJECTED DRINKING WATER FINANCIAL ASSISTANCE PLANNED TO BE PROVIDED
(in millions of \$s)

% of Market Interest Rate	FY12	FY13	FY14	FY15
33%	11.9	7.8	8.0	8.1
55%	47.6	31.2	31.8	32.3
Principal Forgiveness	7.0	7.0	7.0	7.0
TOTAL*	66.6	46.1	46.7	47.4

*May not add due to rounding.

Land Recycling Loan Program (LRLP)

All of the funds allocated to the LRLP have been obligated.

TABLE 3
PROJECTED LAND RECYCLING FINANCIAL ASSISTANCE PLANNED TO BE PROVIDED
(in millions of \$s)

	FY12	FY13	FY14	FY15
TOTAL	0.0	0.0	0.0	0.0

FUND MAINTAINED IN PERPETUITY

The CWFP consists of three loan portfolios:

1. Leveraged Portfolio uses the proceeds from state revenue bonds to make loans;
2. Direct Portfolio uses capitalization grants from the US Environmental Protection Agency (EPA) and state matching funds (it is from this portfolio that the LRLP was funded); and
3. The Proprietary Portfolio for loans that do not fit under the leveraged or direct programs.

Some loans can only be funded in the proprietary portfolio because of questionable credit quality, non-conformity with EPA regulations, or federal tax requirements. The number and amount of loans maintained in the proprietary portfolio is kept to a minimum. The leveraged portfolio is designed so that loan repayments plus state subsidies are used to retire revenue bonds issued. The EPA-funded programs for the CWFP, the SDWLP, and the LRLP are self-perpetuating portfolios which will continue to grow as principal and interest payments are recycled into new loans. EPA regulations require that the EPA-funded programs be maintained in a way that guarantees that they will continue in perpetuity. The only way that the EPA-funded programs would diminish in size is if a substantial number of loan defaults occurred.

ENVIRONMENTAL IMPROVEMENT FUND
BIENNIAL FINANCE PLAN
FIRST VERSION, SEPTEMBER 2010

FINANCIAL REPORTS

Section 281.59(3)(a)5, Wis. Stats., requires the presentation of audited financial statements for the CWFP, the SDWLP, and the LRLP. Financial statements covering those programs, including the balance sheet and statement of revenues and expenses, are part of the overall program financial statements prepared by the DOA and audited by Baker Tilly Virchow Krause, LLP. These statements must be considered in their entirety and may not be presented without accompanying statements and notes. The most recent copies of the audited financial statements, together with the report of the accountants, are available from the DOA Capital Finance Office (608-267-2734) or the DNR Bureau of Community Financial Assistance (608-267-7475) or on the web at <http://www.doa.state.wi.us/capitalfinance/>.

Attachment A summarizes program authority levels and financial assumptions. Attachment B charts projected sources and uses of funds for the 2011-13 biennium. Attachment C shows the estimated fund capital available for commitments in each of the next four fiscal years based on projected repayment of financial assistance and other fund balance projections.

PRESENT VALUE OF SUBSIDIES

Table 4 provides estimates of the present value of long-term subsidy amounts that will be provided assuming the levels of assistance proposed in previous section of this report. Present value subsidy is the control mechanism that is employed under the EIF and the loan and grant programs operating within the Fund to measure the fiscal impact on the state. The stream of payments over the life (20 years) of all loans to municipalities that the state would have to make to finance the difference between the actual subsidized loan and a market rate loan is the total subsidy. The total subsidy over time is discounted to produce a present value equivalent figure. Each year's funding list identifies projects in priority order. If there is insufficient present value subsidy to provide subsidized loans to all municipalities on the list, only those projects with the highest priority would be funded with subsidized loans.

TABLE 4
PRESENT VALUE SUBSIDY LEVEL
ENVIRONMENTAL IMPROVEMENT FUND
(in millions of 2010 \$s)

CLEAN WATER FUND PROGRAM

Loans at 60% of market rate - compliance maint.	85.5
Loans at 65% of market rate -- storm water	0.7
Loans at 70% of market rate - unsewered	0.6
Loans at market rate	0.0
Hardship grants and principal forgiveness	23.3
TOTAL	110.2*

SAFE DRINKING WATER LOAN PROGRAM

Loans at 33% of market rate	4.4
Loans at 55% of market rate	12.2
Loans receiving principal forgiveness	14.0
TOTAL	30.7*

*May not add due to rounding.

ENVIRONMENTAL IMPROVEMENT FUND
BIENNIAL FINANCE PLAN
FIRST VERSION, SEPTEMBER 2010

LRLP SERVICE FEE

Section 281.60(11m) specifies that the DNR and the DOA shall jointly charge and collect an annual service fee for servicing LRLP financial assistance agreements. The statute also specifies the fee for the biennium shall be described in the Biennial Finance Plan. The service fee for the 2011-13 biennium is 0.5% of the outstanding balance on LRLP loans.

IMPACT ON S. 281.59(3)(b), WIS. STATS., GUIDELINES:

The CWFP authorizing legislation rules that, in preparation of the Biennial Finance Plan, the DNR and the DOA shall consider as a guideline that all state water pollution general obligation debt service should not exceed 50% of all general obligation debt service costs of the state. The debt service costs for all state water pollution abatement programs were approximately 14.8% of all state debt service in fiscal 2010 and are expected to total 11.6% of all state debt service in fiscal 2011. As a percentage of total General Purpose Revenue debt service, these figures would be 16.3% and 13.1% respectively. Accordingly, the pollution abatement debt service costs are well within the 50% guideline. The composition of the debt service costs will change over time as the debt service expense of the CWFP replaces debt service for the expenses incurred under the Wisconsin Fund grant program.

The state cost of assisting municipalities in the construction of pollution control facilities will continue to be significantly less than that which was previously incurred to offer state grants for similar facilities.
